The **Journal of the American Association for the Advancement of Curriculum Studies (JAAACS)** is the official publication of the American Association for the Advancement of Curriculum Studies (AAACS), the U.S. affiliate of the International Association for the Advancement of Curriculum Studies (IAACS). In collaboration with other local IAACS affiliates, AAACS seeks to provide support for scholarly conversations within and across national and regional borders regarding the content, context, and process of education, the organizational and intellectual center of which is the curriculum.

The aim of this journal is to publish critical essays that theoretically and historically contextualize new scholarship, interweaving past and present ideas and perspectives in the field, and exploring their relations to culture and society.
