2. CERTIFICATE OF AUTHORSHIP

To be given authorship credit in the UBCMJ, there must be substantial contributions to:

- (1) Conception and design, acquisition of data, or analysis and interpretation of data;
- (2) Drafting or critically revising the article for important intellectual content; and
- (3) Final approval of the version to be published.

All persons who qualify for authorship should be listed. Each author should have participated sufficiently in the work to take public responsibility for appropriate portions of the content. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship.

I certify that I meet all the conditions above: _____
